## SUMMARY

- Aspiring for a challenging career in Software Development as to use my learned skills and experience for best results.
- Around **5+ years of extensive hands-on experience of developing and deploying n-tier based applications.**
- An experienced team player with excellent communication and interpersonal skills who has the ability to work independently under pressure, can lead, motivate and influence.
- Dedicated and result-oriented **Corporate Java Trainer** with **5+ years of experience** in delivering high-impact training programs to corporate professionals, freshers, and lateral hires. Strong expertise in **Core Java, Java 8+, Spring Boot, RESTful APIs, and Microservices architecture**. Adept at designing customized training modules, conducting hands-on sessions, mentoring trainees, and evaluating performance to enhance learning outcomes. Proven ability to explain complex technical concepts in a simplified manner, making learning interactive and effective.

## PROFESSIONAL SUMMARY

- Working as Associate Software Engineer at Coin Technologies Pvt. Ltd. (July 2017 to March 2018)

- Working as a Java Developer at Dogra Technologies Pvt. Ltd. (April 2018 to Feb 2020)

- Working as a Java Developer at Shreeraj Enterprises Pvt. Ltd. (March 2020 to May 2021)

- Working as a Java Consultant at Cognizant (Jun 2021 to Jun 2023)

- Currently working as a **Full Stack Developer & Trainer** in **Confluence InfoTech**,

Nashik  from March 2023 to till date.

## Trainer Summary

- ➢ Freelance Trainer & Mentor at **Edureka** for FSD (Full Stack development) Internship Program.

- ➢ Freelance Trainer & Mentor at **Henry Harvin** for FSD Java Program.

➢ Freelance Trainer & Mentor at **Educraft** for FSD Java Program.

➢ Freelance Trainer & Mentor at **Testing Shastra** for Spring Boot & Front-End Development Program.

➢ Full Time Trainer & Mentor at **Confluenc Infotech.**

➢ Content Creator at **Learnkarts** for Spring Boot and Spring Security.

➢ Freelance Training at **Indegene** for Java Spring & Java Back End Development ➢ Freelance Training at **Giggada Technologies** for Java FSD

## SKILLS SET

**Languages**: J2EE, J2SE, Java 8/11 Features, Spring MVC, Spring Boot, JQUERY, JavaScript, Oracle, H2 Database, MySQL Microservices with Spring Boot, Maven, Git, Postman, Unit Testing (JUnit, Mockito), RESTful Web Services.

**Frameworks**: Spring Framework, Java MVC Framework, JUnit 5, Hibernate.

**Tools**: Eclipse, STS, IntelliJ, VS Code

## PROJECTS

**Project Name**: Ford Connected Services.
**Industry**: Ford(Client as Cognizant)
**Description:** Spring Boot, JPA, JUnit 5, Hibernate, MySql.
**Role**: Application Development.
**Description & Responsibilities:**
- ●Drivers access connected vehicle features using the FordPass app Which enables a variety of remote services, including checking on vehicle health, fuel level and oil levels, range, as well as locking and unlocking doors.
- ● FordPass Connect is the embedded modem that allows you to connect and control certain vehicle functions such as: Remotely Unlock and lock your vehicle. Remotely start your vehicle. Locate your parked vehicle. Schedule a remote start for specific times and days of the week.
- ●What does Ford Pass do? When a Ford vehicle owner downloads the Ford Pass application,they will be able to start their vehicle from almost anywhere and lock/unlock the doors.

- We are working on an Event Router in which we design a number off alert and test it using JUnit 5 and also use Mockito.

**Project Name**: Finance Application
**Industry**: Dogra Technologies Pvt. Ltd.
  **Description:** Spring Boot, JPA, Hibernate, HTML5, CSS, thymeleaf, BoostStrap, JavaScript, Mysql, Jquery
**Role**: Application Development.

**Description & Responsibilities:**
- In any industry, whether manufacturing or service, we have multiple departments, which function day in day out to achieve organizational goals. The functioning of these departments may or may not be interdependent, but at the end of day they are linked together by one common thread – Accounting & Finance department
- Providing information to management of an organization which is used for the purpose of planning, analysis, benchmarking and decision making.
- Providing information to shareholders & public at large in case of listed companies about various aspects of an organization.
- At times for large organizations it becomes very complex but the benefits are far more than such complexities. We can say that financial reporting contains reliable and relevant information which are used by multiple stakeholders for various purposes.

**Project Name:** Welltarx
**Client:** US Vertarx (Welltrax Trucking Software)
**Industry:** Dogra Technologies
**Description:** Spring Framework, Flex & ActionScript , Flash Builder, glassfish, My SQL
**Role:** Java Developer

**Description & Responsibilities:**
- Welltrax Trucking Software Dispatch and Electronic Ticketing (TMS) ● Welltrax provides an easy to use, feature rich and highly customizable bulk transportation software. Load Management, Dispatch, Tracking, Electronic Ticketing
- We develop invoice and payroll Module in this Project.

**Project Name:** Hotel Management System
**Industry:** Coin Technologies Pvt. Ltd.
**Description:** Java MVC, HTML5, CSS, BootStrap, JavaScript ,Oracle, Jquery, Jsp, Servlet, Web Logic

**Role:** Application Development.

**Description & Responsibilities:**

● We have tried best to make the complicated process of Online Hotel Management System as simple as possible using Structured & Modular technique & Menu oriented interface. ● We have tried to design the software in such a way that user may not have any difficulty in using this package & further expansion is possible without much effort.
● Even though we cannot claim that this work to be entirely exhaustive, the main purpose of we exercise is perform each Employee's activity in computerized way rather than manually which is time consuming.
● I am confident that this software package can be readily used by non-programming personal avoiding human handled chance of error.

**Project Name**: Hospital Management System
**Industry:** Coin Technologies Pvt. Ltd.
**Description:** Java MVC, HTML5, CSS, BoostStrap, JavaScript ,Oracle, Jquery, Jsp,
                 Servlet Web Logic
**Role:** Application Development

**Description & Responsibilities:**

● This Project deals with processing of each and every department in the hospital. This project sincerely aims to reduce the manual processing of each department. ● Record of patients are kept and appointments are made according to schedule so that the patients can meet doctors in right it is convenient for both doctor and patient. ● Prescriptions provided by doctor are kept in records.
● Medicine department records are kept for patients convince about the medicines that he need.

**EDUCATION**

● Bachelor degree in Computer Science (B.E.) from PuneUniversity with 66.69%.

● Diploma (Information Technology) from MSBTE Board with 68.42%.

● SSC from Nashik Board with 69.38%.

**PERSONAL QUALITIES**

● Plan the work and work the plan.
● Decision making.
● Consistency, bear ability and adjustability.

**INTERESTS AND HOBBIES**

- Playing Chess
- Listening music
- Watching Movies

**PERSONAL INFORMATION**
**Date of Birth:**25th June 1991
**Languages known:** English, Hindi, Marathi.
**Current Address:** Nashik 422001
